FDD Abstract [REDACTED]

1951 MATERIAL REQUIREMENTS OF FOUR ELECTRICAL GOODS AND TELECOMMUNICATIONS PLANTS
(approximately 500 pp; German; undated)

[REDACTED] 25X1X

25X1A

This document [REDACTED] containing approximately 500 pages of tables, undated, but ~~apparently~~ of early 1951, listing material requirements for 1951 for the following four plants:

Fernmeldewerk Treptow VEB (Treptow People-Owned Telecommunications Plant). The tables give the material requirements for the planned production of various types of electrical and telecommunication apparatuses in 1951.

VEB Elektromotorenwerk Wernigerode/Harz (People-Owned Electric Motors Plant, Wernigerode/Harz). The material requirements are given for the planned production of various types of motors in 1951.

Gluehlampenwerk Plauen VEB (Plauen People-Owned Light Bulb Factory). The material requirements are given for the planned production of large and small light bulbs in 1951.

RFT Gluehlampenwerk Dresden VEB (Dresden People-Owned Light Bulb Factory of the Federation of People-Owned Enterprises for Radio and Telecommunications). The material requirements are given for the planned production of 9,500,000 general purpose light bulbs in 1951.
